Maritime area : 1,2 millions de sq km
Number of inhabitants : 33,8 millions
Currency : Moroccan Dirham (MAD)
Time zone : UTC + 0 ; + 1 in summer

MOROCCAN  **SEAFOOD**
Naturally

As an official Guide of the industrial players of the Moroccan fisheries sector, the «Directory of maritime fishing industries,» is aimed at all professionals.

Organized by activity, to facilitate research and reading, this guide lists all the industrial sector professionals.

Therefore, the following pages will be presenting the companies operating in this sector of activity, namely fresh fishery products packaging, freezing, canning, semi-preserving, fish meal and oil, shrimp peeling, shellfish shipping, storage and other development activities such as smoking, drying, ...

This guide promotes the expertise of those skilled human resources, leading all the links in the industrial sector from reception to marketing.

All these women and men, processors, distributors ... who learned respect for the sea and its marine species through their customs, possess all the necessary skills to master all the parameters defining the health, nutrition and taste quality of seafood.

These true sea professionals develop over time their expertise to offer quality products meeting your expectations.
